

BA329

PHP Developer (Mid) wanted

We are **BA329**, an independent digital studio with big ambitions and passion for creating full service digital experiences that generate greater results and fantastic user experience in every-day products.

We are looking for a talented developer, who enjoys working in a dynamic and evolving environment, knows how to handle an occasional curveball, and gets excited about creating new products.

Requirements:

- 2 years experience working with PHP
- Experience with Laravel and/or Symfony
- MySQL / MariaDB experience
- Experience using GIT
- Clear, effective, and proactive communication skills

Nice if you have:

- Experience implementing full stack requirements using PHP, WordPress, HTML, CSS/SASS, JavaScript
- Experience with modern JavaScript frameworks (React, AngularJS, Vue.js)
- Experience with ES6/TypeScript
- Strong eye for UI/UX and graphic design

What we offer:

- Competitive salary based on skills and experience
- Exciting and challenging projects
- Work in a team of experienced and highly skilled professionals
- Brand new office close to the city center
- Flexible working hours
- Free parking
- Coffee / drinks / snacks
- Xbox / Netflix
